**Lionel Conacher**

President

Chief Operating Officer

Carey Condy was great to work with during our search for a “modern” home in the Kentfield/Ross area. She listened to our list of wants and needs and “got” what we were looking for right away. She did not waste our time, which was important, as we were flying in and out of Toronto with very limited time.

Once we found the right property, Carey was very effective during the negotiation process and facilitated us getting the house we wanted at the right price.

Since purchasing our home, Carey and her team continually and consistently helped us jump through the many hoops of a construction project, lengthy design review process and all of the loose ends that were very difficult to take care of from Toronto including the hosting of a neighborhood gathering at our new house, calling neighbors on our behalf. She was also extremely helpful in assisting my family with the gathering of information on schools, programs for our children, etc.

She always went above and beyond our expectations, and is still doing that many months later.

Sincerely,

Lionel Conacher
